

HONEYCOMB SHADES

horiso®

Horiso's Honeycomb Shades feature a cellular design that traps air within each cell. The system enhances thermal insulation, reduces noise, and boosts energy efficiency throughout any space.

Key Features:

- **Energy Efficiency:** Among the highest insulation ratings for internal blinds, helping reduce heat and cooling costs.
- **Minimal Light gaps:** Fit to precision, leaving only minimal gaps for optimal light control.
- **Clear views:** When retracted, the fabric stack is minimal and doesn't obstruct the view outside the window.
- **Day & Night:** Enjoy top-down bottom-up operation for flexible privacy and sun light management.
- **Child Safety:** All chain systems include child-safe devices; for a cordless solution, choose our motorised or Easy Lift blinds.
- **Easy to Clean:** Crafted from anti-static, non-woven fabric, the shades are designed for low maintenance upkeep.
- **Peace of Mind:** Worry less with 3-year warranty.
